

Technical Production / 🏰 **Technical Production Crew Lead**

✨ **Purpose:**

The Technical Production Crew Lead will oversee and guide the technical production team in supporting audio/visual needs across the festival. This lead ensures a smooth, safe, and professional delivery of sound, lighting, and stage tech for all scheduled performances and activations.

🔧 **Tasks & Responsibilities:**

- Oversee and coordinate the Technical Production Teams
- Lead and coordinate the on-site tech crew
- Ensure gear is set up and used properly (cables, mixers, lights, etc.)
- Troubleshoot technical issues and manage A/V transitions between sets or speakers
- Ensure a smooth tech flow across both music and workshop spaces

🕒 **Time Commitment:**

- Long Crew: pre-festival setup and full coverage during festival days
- Strong availability during sound checks, stage transitions, and closing day

Technical Production / **Media Team Lead**

Purpose

The Media Team Lead is responsible for overseeing the documentation and media coverage of the festival. This includes capturing high-quality content across various festival activities and ensuring that all materials are submitted for post-festival promotion.

Tasks & Responsibilities

- Coordinate media coverage for stages, workshops, and other activities during the festival
- Develop an overall media plan in collaboration with the Festival Director
- Brief media crew before the festival to ensure clear goals and expectations
- Manage the media team and ensure high-quality content is captured throughout the event

Time Commitment

- Pre-festival: Media planning and coordination
- Festival shifts: Oversee media team and ensure coverage of key events

Post-festival: Organize and submit media content
